## EXPERIENCE

### Frontend

Html, Css, Bootstrap, MUI, TailwindCss, Javascript

⌚ more than 2 years

### Frameworks

React JS, Next Js

⌚ more than 1 years

### Backend

NodeJS, Express

⌚ more than 2 years

### Databases

MongoDB, MySQL

⌚ more than 2 years

## RECENT PROJECTS

### Library Management System

- Developed a web-based app for Tiny Seeds School featuring book cataloging, user management, and transaction tracking. Utilized MongoDB for efficient data storage and integrated RESTful APIs for seamless CRUD operations.

### Hospital Management System

- Streamline processes, enhance patient care, and improve efficiency. It integrates appointment scheduling, patient records, billing, and inventory control into a single platform.

### Nepali License Plate Detection

- Develop Complete Web App which detects the vehicle number plate area and automatically carried out text extraction.

### Todo app

- For storing user short notes on localStorage.

## MY LIFE PHILOSOPHY

*"Thriving on challenges and finding creative solutions"*

## STRENGTHS

Hard-working Eye for detail

Fluent communication

C C++ DSA Computer Network

## LANGUAGES

Nepali

English

Hindi

## EDUCATION

BE in Computer Engineering

Tribhuwan University

⌚ Sept 2019 – April 2024

Project title: Nepali Number Plate Detection & Character Recognition

+2 in Computer Science

Morgan International College

⌚ July 2017 – June 2019
